Question

$$\frac{r}{38} = s + t$$

The given equation relates the quantities r, s, and t. Which equation correctly expresses r in terms of s and t?

Answer

A. $r = s + t + 38$

B. $r = s + t - 38$

C. $r = 38(s + t)$

D. $r = \frac{s+t}{38}$

Correct Answer: C

Rationale

Choice C is correct. Multiplying both sides of the given equation by 38 yields $r = 38(s + t)$.

Choice A is incorrect. This equation is equivalent to $r - 38 = s + t$, not $\frac{r}{38} = s + t$.

Choice B is incorrect. This equation is equivalent to $r + 38 = s + t$, not $\frac{r}{38} = s + t$.

Choice D is incorrect. This equation is equivalent to $38r = s + t$, not $\frac{r}{38} = s + t$.
