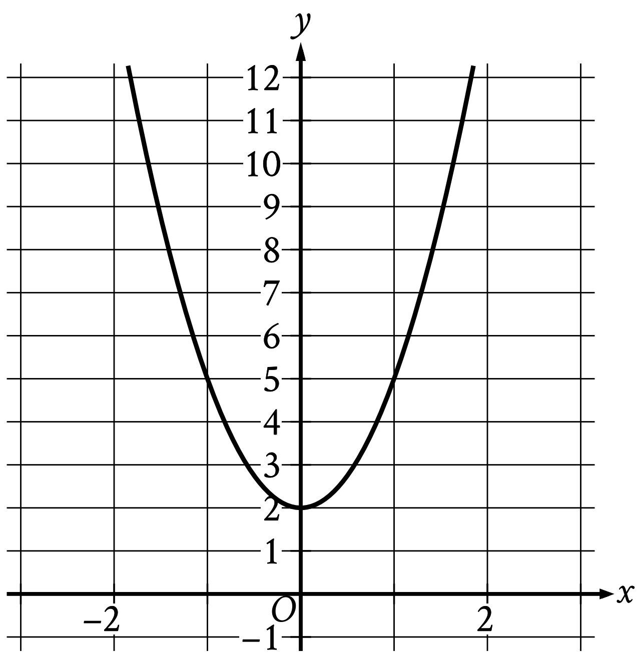
Question



The graph of the quadratic function $y = f(x)$ is shown. What is the vertex of the graph?

Answer

A. $(0, -2)$

B. $(0, -3)$

C. $(0, 2)$

D. $(0, 3)$

Correct Answer: C

Rationale

Choice C is correct. The vertex of the graph of a quadratic function in the *xy*-plane is the point at which the graph is either at its minimum or maximum *y*-value. In the graph shown, the minimum *y*-value occurs at the point $(0, 2)$.

Choice A is incorrect. The graph shown doesn't pass through the point $(0, -2)$.

Choice B is incorrect. The graph shown doesn't pass through the point $(0, -3)$.

Choice D is incorrect. The graph shown doesn't pass through the point $(0, 3)$.
