Question
 $(x + 5) + (2x - 3)$

Which of the following is equivalent to the given expression?

- Answer
- A. $3x - 2$
 - B. $3x + 2$
 - C. $3x - 8$
 - D. $3x + 8$

Correct Answer: B

Rationale

Choice B is correct. Using the associative and commutative properties of addition, the given expression $(x + 5) + (2x - 3)$ can be rewritten as $(x + 2x) + (5 - 3)$. Adding these like terms results in $3x + 2$.

Choice A is incorrect and may result from adding $(x - 5) + (2x + 3)$. Choice C is incorrect and may result from adding $(x - 5) + (2x - 3)$.

Choice D is incorrect and may result from adding $(x + 5) + (2x + 3)$.
