Question

What is the x -coordinate of the x -intercept of the graph shown?

Correct Answer: 6

Rationale

The correct answer is **6**. An x -intercept of a graph is a point on the graph where it intersects the x -axis, or where the value of y is **0**. The graph shown intersects the x -axis at the point **(6, 0)**. Therefore, the x -coordinate of the x -intercept of the graph shown is **6**.
