Question

The graph gives the estimated population y , in thousands, of a town x years since 2003, where $0 \leq x \leq 5$. Which of the following best describes the increase in the estimated population from $x = 0$ to $x = 1$?

Answer

- A. The estimated population at $x = 1$ is **0.5** times the estimated population at $x = 0$.
- B. The estimated population at $x = 1$ is **1.5** times the estimated population at $x = 0$.
- C. The estimated population at $x = 1$ is **2.5** times the estimated population at $x = 0$.
- D. The estimated population at $x = 1$ is **3.5** times the estimated population at $x = 0$.
