Question

A total of **165** people contributed to a charity event as either a donor or a volunteer. **130** people contributed as a donor. How many people contributed as a volunteer?

Answer

- A. **35**
- B. **130**
- C. **165**
- D. **330**

Correct Answer: A

Rationale

Choice A is correct. It’s given that a total of **165** people contributed to a charity event as either a donor or a volunteer. It’s also given that **130** people contributed as a donor. It follows that **165 — 130**, or **35**, people contributed as a volunteer.

Choice B is incorrect. This is the number of people who contributed as a donor, not a volunteer.

Choice C is incorrect. This is the total number of people who contributed as either a donor or a volunteer, not the number of people who contributed as a volunteer.

Choice D is incorrect and may result from conceptual or calculation errors.
