Question

$$8x + 11y = 170$$

The equation gives the possible combinations of the number of **2009** premium grade Log Cabin Pennies, x , and the number of **1996** select grade Lincoln Pennies, y , in a collection that is worth a total of **\$170**. If there are **6** **1996** select grade Lincoln Pennies in the collection, how many **2009** premium grade Log Cabin Pennies are in the collection?
