

Question ID: 70d9516e

Question

A bus is traveling at a constant speed along a straight portion of road. The equation $d = 30t$ gives the distance d , in feet from a road marker, that the bus will be t seconds after passing the marker. How many feet from the marker will the bus be **2** seconds after passing the marker?

Answer

A. **30**

B. **32**

C. **60**

D. **90**
