

Question ID: d0cb49e8

Question

Argon is placed inside a container with a constant volume. The graph shows the estimated pressure y , in pounds per square inch (psi), of the argon when its temperature is x kelvins.

What is the estimated pressure of the argon, in **psi**, when the temperature is **600** kelvins?

Answer

- A. 6
- B. 12
- C. 300
- D. 600
