Question
21 is **21%** of what number?

- Answer**
- A. **0**
 - B. **1**
 - C. **42**
 - D. **100**

Correct Answer: D

Rationale

Choice D is correct. Let x represent the number that **21** is **21%** of. It follows that $\frac{21}{x} = \frac{21}{100}$. Multiplying each side of this equation by x yields **21** = $\frac{21x}{100}$. Multiplying each side of this equation by **100** yields **2,100** = **21x**. Dividing each side of this equation by **21** yields **100** = x . Therefore, **21** is **21%** of **100**.

Choice A is incorrect. **21%** of **0** is **0**, not **21**.

Choice B is incorrect. **21%** of **1** is **0.21**, not **21**.

Choice C is incorrect. **21%** of **42** is **8.82**, not **21**.
