Question

How many teaspoons are equivalent to **44** tablespoons? (**3 teaspoons = 1 tablespoon**)

Answer

- A. **47**
- B. **88**
- C. **132**
- D. **176**

Correct Answer: C

Rationale

Choice C is correct. It's given that **3** teaspoons is equivalent to **1** tablespoon. Therefore, **44** tablespoons is equivalent to **(44 tablespoons) $\left(\frac{3 \text{ teaspoons}}{1 \text{ tablespoon}}\right)$** , or **132** teaspoons.

Choice A is incorrect. This is equivalent to approximately **15.66** tablespoons, not **44** tablespoons.

Choice B is incorrect. This is equivalent to approximately **29.33** tablespoons, not **44** tablespoons.

Choice D is incorrect. This is equivalent to approximately **58.66** tablespoons, not **44** tablespoons.
