Question

The following text is adapted from John Matheus’s 1925 short story “Fog.”

The fog extended its tentacles over city and river, gradually obliterating traces of familiar landscapes. At five-thirty the old Panhandle bridge, supported by massive sandstone pillars, stalwart, as when erected fifty years before to serve a generation now passed behind the portals of life, had become a spectral outline against the sky.

As used in the text, what does the word “supported” most nearly mean?

Answer

- A. Held up
- B. Encouraged
- C. Improved on
- D. Defended
