

Question ID: d3104a68

Question

Birds sing to communicate over potentially great distances. For this reason, many researchers believe that birds in densely vegetated habitats generally sing at lower frequencies than birds living in comparatively sparse habitats, since dense vegetation tends to _____ the distance that high-frequency sounds can travel.

Which choice completes the text with the most logical and precise word or phrase?

Answer

- A. exceed
- B. diminish
- C. encompass
- D. conceal
