Question

Modernista architects championed nature in their designs. _____ the wavy staircase and ornate floral tilework of Hospital de Sant Pau, a Modernista hospital designed by Lluís Domènech i Montaner, couldn't exactly grow in a forest. Still, one sees natural influences in Domènech i Montaner's penchant for curves (rather than right angles) and plant- and animal-inspired flourishes.

Which choice completes the text with the most logical transition?

Answer

- A. Furthermore,
- B. Similarly,
- C. Of course,
- D. Thus,

Correct Answer: C

Rationale

Choice C is the best answer. "Of course" logically signals that the information in this sentence—that "the wavy staircase and ornate floral tilework" of the Modernista hospital couldn't actually grow in a forest—acknowledges an obvious limitation of, or qualification to, the previous claim that Modernista architects championed nature in their designs.

Choice A is incorrect because "furthermore" illogically signals that the information in this sentence merely adds to the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features. Choice B is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features. Choice D is incorrect because "thus" illogically signals that the information in this sentence is a result of the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features.
