Question

Unique among animal species, humans use our vocal apparatuses primarily for two separate communicative purposes: to talk and to sing. The question of what cross-cultural traits distinguish these distinct modes, and secondarily what pressures led humans to develop them in the first place, _____ neuropsychologist Daniela Sammler’s 2024 study “Signatures of Speech and Song: ‘Universal’ Links despite Cultural Diversity.”

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. animates
- B. have animated
- C. animate
- D. animating

Correct Answer: A

Rationale

Choice A is the best answer. The convention being tested is subject-verb agreement. The singular verb "animates" agrees in number with the singular subject "question."

Choice B is incorrect because the plural verb "have animated" doesn’t agree in number with the singular subject "question." Choice C is incorrect because the plural verb "animate" doesn’t agree in number with the singular subject "question." Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite participle "animating" doesn’t supply the clause with a finite verb.
