Question

$$\frac{r}{38} = s + t$$

The given equation relates the quantities r , s , and t . Which equation correctly expresses r in terms of s and t ?

Answer

A. $r = s + t + 38$

B. $r = s + t - 38$

C. $r = 38(s + t)$

D. $r = \frac{s+t}{38}$
