

Question ID: 7a8cb72a

Question

$$7m = 2(n + p)$$

The given equation relates the positive numbers m , n , and p . Which equation correctly gives m in terms of n and p ?

Answer

A. $m = \frac{2(n+p)}{7}$

B. $m = 2(n + p)$

C. $m = 2(n + p) - 7$

D. $m = 2 - n - p - 7$
