

## Question ID: b8c4a1cd

### Question

$$8j = k + 15m$$

The given equation relates the distinct positive numbers  $j$ ,  $k$ , and  $m$ . Which equation correctly expresses  $j$  in terms of  $k$  and  $m$ ?

### Answer

A.  $j = \frac{k}{8} + 15m$

B.  $j = k + \frac{15m}{8}$

C.  $j = 8(k + 15m)$

D.  $j = \frac{k+15m}{8}$
