Question

What is the y -intercept of the graph shown?

- Answer**
- A. $(-1, -9)$
 - B. $(0, -5)$
 - C. $(0, -4)$
 - D. $(0, 0)$

Correct Answer: B

Rationale

Choice B is correct. The y -intercept of a graph in the xy -plane is the point (x, y) on the graph where $x = 0$. At $x = 0$, the corresponding value of y is -5 . Therefore, the y -intercept of the graph shown is $(0, -5)$.

Choice A is incorrect and may result from conceptual errors.

Choice C is incorrect. This is the y -intercept of a graph in the xy -plane that intersects the y -axis at $y = -4$, not $y = -5$.

Choice D is incorrect. This is the y -intercept of a graph in the xy -plane that intersects the y -axis at $y = 0$, not $y = -5$.
