Question

What is the y -coordinate of the y -intercept of the graph shown?

Correct Answer: 3

Rationale

The correct answer is **3**. A y -intercept of a graph in the xy -plane is a point (x, y) on the graph where $x = 0$. For the graph shown, at $x = 0$, the corresponding value of y is **3**. Therefore, the y -coordinate of the y -intercept of the graph shown is **3**.
