Question

What is the x-intercept of the graph shown?

Answer

- A. $(-5, 0)$
- B. $(5, 0)$
- C. $(-4, 0)$
- D. $(4, 0)$

Correct Answer: D

Rationale

Choice D is correct. The x-intercept of the graph shown is the point (x, y) on the graph where $y = 0$. At $y = 0$, the corresponding value of x is 4. Therefore, the x-intercept of the graph shown is $(4, 0)$.

Choice A is incorrect. This is the x-intercept of a graph in the xy -plane that intersects the x -axis at $x = -5$, not $x = 4$.

Choice B is incorrect. This is the x-intercept of a graph in the xy -plane that intersects the x -axis at $x = 5$, not $x = 4$.

Choice C is incorrect. This is the x-intercept of a graph in the xy -plane that intersects the x -axis at $x = -4$, not $x = 4$.
