

Question ID: 23c5d458

Question

x	$g(x)$
1	32
2	28
3	24
4	20

For the linear function g , the table shows four values of x and their corresponding values of $g(x)$. The function can be written as $g(x) = mx + b$, where m and b are constants. What is the value of b ?

Answer

- A. 4
- B. 16
- C. 32
- D. 36
