Question

The graph of $y = f(x) - 11$ is shown.

Which equation defines the linear function f ?

Answer

- A. $f(x) = -13x - 11$
- B. $f(x) = -2x + 7$
- C. $f(x) = -13x + 7$
- D. $f(x) = -2x - 11$
