Question

The box plot summarizes **15** data values. What is the median of this data set?

Answer

- A. **2**
- B. **3**
- C. **5**
- D. **8**

Correct Answer: C

Rationale

Choice C is correct. The median of a data set represented in a box plot is given by the vertical line within the box. In the given box plot, the vertical line within the box occurs at **5**. Therefore, the median of this data set is **5**.

Choice A is incorrect. This is the minimum value of the data set.

Choice B is incorrect and may result from conceptual errors.

Choice D is incorrect. This is the maximum value of the data set.
