Question

Response	Frequency
Once a week or more	3
Two or three times a month	16
About once a month	26
A few times a year	73
Almost never	53
Never	29
Total	200

The table gives the results of a survey of **200** people who were asked how often they see a movie in a theater. How many people responded either “never” or “almost never”?

Answer

- A. **24**
- B. **53**
- C. **82**
- D. **118**

Correct Answer: C

Rationale

Choice C is correct. The table gives the results of **200** people who were asked how often they see a movie in a theater. The table shows that **29** people responded “never” and **53** people responded “almost never.” Therefore, **29 + 53**, or **82**, people responded either “never” or “almost never.”

Choice A is incorrect. This is the difference between the number of people who responded “almost never” and the number of people who responded “never.”

Choice B is incorrect. This is the number of people who responded “almost never” but doesn't include those who responded “never.”

Choice D is incorrect. This is the number of people who responded something other than “never” or “almost never,” rather than the number of people who responded either “never” or “almost never.”
