Question
What is **10%** of **370**?

- Answer**
- A. **27**
- B. **37**
- C. **333**
- D. **360**

Correct Answer: B

Rationale

Choice B is correct. **10%** of a quantity means $\frac{10}{100}$ times the quantity. Therefore, **10%** of **370** can be represented as $\frac{10}{100}(\mathbf{370})$, which is equivalent to $\mathbf{0.10(370)}$, or **37**. Therefore, **10%** of **370** is **37**.

Choice A is incorrect. This is **10%** of **270**, not **10%** of **370**.

Choice C is incorrect. This is **90%** of **370**, not **10%** of **370**.

Choice D is incorrect. This is **370 — 10**, not **10%** of **370**.
