Question

A waiter receives tips from each customer. On average, the tip is 15% of the customer’s bill. At this rate, which of the following is closest to the tip the waiter can expect when a customer has a bill that is \$78.20?

Answer

- A. \$8.00
- B. \$10.00
- C. \$12.00
- D. \$14.00

Correct Answer: C

Rationale

Choice C is correct. If the bill is \$78.20, 15% of the bill can be found by multiplying 78.20 by the decimal conversion of 15%, $78.20 \times 0.15 = \$11.73$. The exact amount \$11.73 is closest in value to \$12.00.

Choices A, B, and D are incorrect and may be the result of errors when calculating 15% of the total \$78.20.
