Question

What percentage of **300** is **75**?

Answer

- A. **25%**
- B. **50%**
- C. **75%**
- D. **225%**

Correct Answer: A

Rationale

Choice A is correct. Let x represent the percentage of **300** that is **75**. This can be written as $\frac{x}{100}(300) = 75$, or $3x = 75$. Dividing both sides of this equation by **3** yields $x = 25$. Therefore, **25%** of **300** is **75**.

Choice B is incorrect. **50%** of **300** is **150**, not **75**.

Choice C is incorrect. **75%** of **300** is **225**, not **75**.

Choice D is incorrect. **225%** of **300** is **675**, not **75**.
