

Question ID: 35fd0eb4

Question

The discoverers of the minor planet 1227 Geranium named it after the plant genus that includes cranesbills. Most of the recently discovered minor planets, however, are given only an identification number, largely due to there being over 500,000 such bodies known at present, which makes the already challenging task of finding a unique name for each nearly _____.

Which choice completes the text with the most logical and precise word or phrase?

Answer

- A. insurmountable
- B. feasible
- C. substantial
- D. unnecessary
