

Question ID: 995358b4

Question

In a 2022 study, Nicolás M. Morato and colleagues attempted to resolve a long-standing paradox: although water is critical to most reactions that enable life, during the earliest stages of Earth's history—when most of the planet's surface was covered by oceans—the presence of water likely _____ the formation of proteins and other biomolecules that are found in all living organisms.

Which choice completes the text with the most logical and precise word or phrase?

Answer

- A. reflected
- B. hampered
- C. imitated
- D. exploited
