

Question ID: eea351c4

Question

“Wishcycling”—putting nonrecyclable items into recycling bins under the mistaken belief that those items can be recycled—ultimately does more harm than good. Nonrecyclable items, such as greasy pizza boxes, can contaminate recyclable materials, rendering entire batches unusable. _____ nonrecyclable products can damage recycling plants’ machinery.

Which choice completes the text with the most logical transition?

Answer

- A. Fittingly,
- B. On the contrary,
- C. Moreover,
- D. Nevertheless,
