Question

Many mechanical calculators were powered by a notched cylinder mechanism called the Leibniz wheel. Leibniz wheel calculators were popular in the first half of the twentieth _____ these ingenious devices were eventually replaced by electronic calculators.

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. century
- B. century,
- C. century, but
- D. century that

Correct Answer: C

Rationale

Choice C is the best answer. The convention being tested is the coordination of main clauses within a sentence. This choice correctly uses a comma and a coordinating conjunction ("but") to join the first main clause ("Leibniz...century") and the second main clause ("these ingenious...calculators").

Choice A is incorrect because it results in a run-on sentence. The two main clauses are fused without punctuation and/or a conjunction. Choice B is incorrect because it results in a comma splice. Without a conjunction following it, a comma can't be used in this way to join two main clauses. Choice D is incorrect because joining the two main clauses in this way with the subordinating conjunction "that" results in an ungrammatical and illogical sentence.
