

Question ID: ace95f84

Question

By analyzing the level of radioactive decay within a fossil specimen, scientists can establish the age of that fossil with a high degree of precision. When radioactive elements aren't present, scientists turn to _____ analysis of Earth's sediment layers (strata)—to estimate how old a fossil is based on the age of the strata in which the fossil is found.

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. stratigraphy—the
- B. stratigraphy (the
- C. stratigraphy: the
- D. stratigraphy, the
